

BOROUGH OF EDGEWATER  
MUNICIPAL BUILDING  
55 RIVER ROAD  
EDGEWATER, NEW JERSEY 07020

---

Phone (201) 943-1700  
Facsimile (201) 943-9242

October 3, 2014

Dear Residents:

This letter is a public notification and community outreach to the residents of Edgewater concerning the commencement of the remediation of Veteran's Field pursuant to NJAC 7:26C-1.7. The Borough formally hired a new contractor, Enterprise Network Resolutions Contracting, LLC (ENRC) from Winslow, New Jersey, the lowest bidder out of ten (10) contractors who submitted bids. ENRC will mobilize their equipment and machinery to the site on Monday, October 6, 2014. Additional activities which were outlined as part of the bid specification will commence shortly thereafter.

Please be advised that there will be a great deal of activity on Veteran's Field that will include workers, equipment, and trucks entering and leaving the property. Due to increased vehicular traffic, please obey all traffic controls implemented by our Police Department.

Furthermore, to ensure the safety of the surrounding public, air monitoring equipment and dust suppression measures will be employed during the remediation and removal of contaminated fill. These activities will be monitored by First Environment, the environmental consultants charged with overseeing the remediation process. Any and all environmental questions should be directed to me or Mr. Thomas Bambrick (Licensed Site Remediation Professional) at (973)-334-0003. The Borough has maintained a Veteran's Field webpage since the inception of this project at [www.edgewaternj.org](http://www.edgewaternj.org).

I would like to thank our residents who have been patient with the Borough as we get this project moving again.

Very Truly Yours,

Gregory S. Franz,  
Borough Administrator

Thomas C. Bambrick, LSRP  
First Environment, Inc.
